

Module 1

Human Health: *Staying Healthy with Personal Hygiene Habits*

Lesson 1

Setting the Conditions for Learning - a Kick-Off for our time together

Assessment for Learning

This diagnostic activity will help to create a baseline awareness and understanding of the student's prior knowledge. It is recommended that the exact same assessment is provided near the end of the fifth module to help recognize a deeper understanding of One Health awareness and content. Included are knowledge-, behavior-, and effort-based questions which are highlighted below to help the facilitator(s).

Pre-Questionnaire Sample #1

Knowledge-based question

1. When do you wash your hands?
 - a)
 - b)
 - c)

Behavior-based question

2. I practice basic hygiene habits every day to stay healthy.
Yes or No

Knowledge-based question

3. Earth's surface consists of half land and half water.
Yes or No

Behavior-based question

4. I protect the environment because (circle the correct answer)
 - Trees give us fresh oxygen
 - People and animals can find healthy food to eat
